TROUBLE SHOOTING

- Some terminal music players do not have an automatic switching play function, which may result in a 'pop' noise between songs.
- If you are unable to connect wirelessly to your mobile device, try removing the Speaker from your mobile device's list of saved devices.

- A weak connection between the mobile device and the speaker can affect the sound performance. To improve the connection, move the mobile device closer to the speaker or remove any obstacles between the two devices.

- Low battery power can also affect the speaker's sound performance. Please ensure that the speaker is fully charged to resolve this issue.
